10	Wed, 2015-05-27	
11	Wed, 2015-06-03	Progress / Presentation
12	Wed, 2015-06-10	Project Management & Deployment
13	Wed, 2015-06-17	Project Implementation
14	Wed, 2015-06-24	Final Report / Presentation

Group assignment:

1. Prepare your project final report, use the provided template.
 - i) Project Idea
 - ii) Project Technical Solution
 - iii) Project Results
 - iv) Project Future Potential
2. Send the files to the tutor by the next session (Wednesday, 2015-06-24, 08.15) at the latest

Next session (Wednesday, 2015-06-24):

1. Prepare slides for your project final implementation. Focus more into **how** you implemented your project design. Try to relate/map your implementation with your design.
 - For example, you have 3 entities in domain model:
 - implemented with 2 tables in database
 - represented with 5 classes in your MVC framework
2. Present your slides in the class
 - For each group, allocated time is 8 minutes + 2 minutes for Questions and Answers
 - Try to distribute your slides to all members of your group equally
