

Exercise sheet 6

CommonKADS

Exercise 1 - CommonKADS Model Set (10 points)

Provide a summary of the CommonKADS Model Set and its application (i.e., for what is it used). Design the summary in a way that you are able to use it for a presentation in the pro-seminar (powerpoint or well-structured text document). Use examples to clarify the differences.

Exercise 2 - Stages in Knowledge-Model Construction (10 points)

Provide a summary of the stages involved in Knowledge-Model Construction and its application (i.e., for what is it used). Design the summary in a way that you are able to use it for a presentation in the pro-seminar (powerpoint or well-structured text document). Use examples to clarify the differences.
